VILLA

48 RACÓ DE GALENO

**Spectacular luxury Villa
with sea views to the Mediterranean**

Racó de Galeno is one of the most prestigious and luxurious residential developments on the Costa Blanca, renowned for its exclusivity, natural beauty and architectural elegance. Located on the slopes of Benissa, this enclave is characterised by high-end modern villas, panoramic sea views and a refined atmosphere that combines Mediterranean charm with contemporary design. The development consists almost entirely of luxury private residences, creating a cohesive environment of serenity, sophistication and privacy.

Benissa, meanwhile, is a jewel of the Costa Blanca offering a unique contrast of landscapes. From its carefully preserved old town with cobbled streets and traditional architecture to its 4 kilometres of tranquil coastline dotted with hidden coves and crystal-clear waters, Benissa combines cultural richness with coastal luxury.

The area is well connected to nearby destinations such as Moraira, Calpe and Jávea. This villa is located in a particularly picturesque section of Racó de Galeno, surrounded by other luxury villas with sea-facing swimming pools. It is carefully positioned to face the coast, offering unobstructed views of the Mediterranean from the terraces and living areas.

Designed with natural materials inspired by the region—stone, wood, and pure white finishes—the homes blend harmoniously into the landscape, reflecting the aesthetics of the modern Mediterranean.

They feature six spacious bedrooms, a private swimming pool, large terraces with sea views, and premium amenities such as a lift, open spaces, and high-end materials throughout the construction.

This location and design represent the pinnacle of residential luxury on the Costa Blanca, ideal for discerning buyers seeking privacy, panoramic views and architectural excellence in a prestigious community.
